

JEYARUBI M

Software Developer | QA / Test Engineer

Madurai, India | 82204 69433 | jeyarubim@gmail.com | [portfolio-ytqd.vercel.app](#) | [linkedin.com/in/jeyarubi-m-37891b280](#) | [github.com/Rubiee325](#)

PROFESSIONAL SUMMARY

Computer Science Engineering graduate (2026) with hands-on experience in full-stack development (React, Node.js, .NET, Java) and application testing gained through internships and independent projects. Skilled in building and validating web applications end-to-end, including manual testing against requirements, API testing with Postman, and defect tracking in Jira. Seeking a Software Developer or QA/Test Engineer role.

CORE SKILLS

- Languages & Frameworks: Java, C, C#, .NET, HTML, CSS, JavaScript, React.js, Node.js
- Testing: Manual functional testing, API testing (Postman), bug tracking & reporting (Jira), UAT support
- Databases & Tools: MySQL, Git/GitHub, Figma (UI/UX), Agile/Scrum exposure
- Soft Skills: Teamwork, time management, leadership, effective communication, critical thinking

INTERNSHIP EXPERIENCE

- Web Development Intern** — Kevell Corp, Madurai2024
- Built a Task Timer web application using HTML, CSS, and JavaScript during a 15-day intensive internship
 - Manually tested application features across 3+ browsers to verify functionality before handoff
- .NET Development Intern** — Zealsoft Technologies, Madurai2025
- Learned C# and .NET fundamentals; built a fitness tracker application using ASP.NET
 - Debugged and tested application workflows, identifying and resolving data-tracking defects

PROJECTS

- Faculty Career Advancement System** — Academic Project
- Developed a role-based web platform supporting admins, faculty, and students with secure authentication and access control
 - Conducted manual functional testing across user roles to validate permissions and profile workflows
- Fitness Tracker (Django)** — Personal Project
- Built a Django-based fitness tracking app with workout logging, goal setting, and progress dashboards; tested data flows for accuracy
- Dashboard Builder** — Personal Project
- Developed a customizable React dashboard with drag-and-drop widgets, interactive charts, and KPI cards; tested UI components for smooth data visualization
- SkinSense — Skin Disease Detection** — Academic Project
- Built a deep-learning image classification app to detect skin conditions and flag early risk indicators; validated predictions against test image sets
- Portfolio Website** — Personal Project
- Designed a responsive personal portfolio using React, HTML, CSS, and JavaScript; optimized performance and cross-browser compatibility
- Bail Reckoner** — Smart India Hackathon (SIH) Project
- Developed a web-based legal assistance application to help users assess bail eligibility using rule-based logic and simplified legal guidelines

EDUCATION

- B.E., Computer Science Engineering** — Kamaraj College of Engineering and Technology, Virudhunagar2022 – 2026
- CGPA: 8.89 / 10 (through 7th semester)
- HSC** — Nirmala Girls Higher Secondary School, Madurai (2021–2022): 87%
- SSLC** — Nirmala Girls Higher Secondary School, Madurai (2019–2020): 87%

CERTIFICATIONS

- Oracle — Java Foundations (1Z0-811) | Infosys Springboard — Java Fundamentals
- NPTEL — Data Science for Engineers | VEI Technologies — MERN Stack (Value-Added Course)

ACHIEVEMENTS

- Gold Medalist — Academic Excellence (2023–2024)
- Ranked among the Top 10 teams in the Smart India Hackathon (SIH) at the college level
